

Help Document for Neah-Kah-Nie Treasure Awards Fillable PDF Nomination Form

1. **Internet Explorer:** The form works as expected. Both the print form and email buttons work as intended.

2. **Firefox:** The form will work as expected, but you must pay attention to the bar at the top of the page when you open the form. You must click on Open With Different Viewer. When you click on this button you will be given a choice to open the form with Adobe.

3. **Chrome:** The form will open just fine, but Chrome does not treat PDF's the way that other browsers do. You can fill out the form, and use the print icon  to print the form and submit it to me through regular mail or interdistrict mail. You may also click on the download icon  and save the form to your desktop. Once you open the Adobe file you downloaded to your desktop the form will then operate as intended with both the print and email functions operating as designed. I would recommend that if Chrome is your only option for an internet browser that you choose the download option.
