Message from the Superintendent

Welcome to the Neah-Kah-Nie School District! The mission of the school district is to prepare students to become productive and responsible citizens for an ever-changing world through diverse educational opportunities in partnership with the community.

School district office hours are Monday-Friday, 8:00 a.m. to 4:00 p.m. Neah-Kah-Nie School District is located on the beautiful North Oregon Coast, Tillamook County, encompassing the communities of Bay City, Garibaldi, Rockaway Beach, Wheeler, Nehalem, and Manzanita. The district has four schools: Garibaldi Grade School, Nehalem Elementary, Neah-Kah-Nie Middle School, and Neah-Kah-Nie High School. There are currently 727 students enrolled in the school district. Our local newspapers are The North Coast Citizen and The Headlight Herald. There are many opportunities for outdoor recreation including fishing, clamming, camping, surfing, crabbing, biking, climbing, kite flying and many other recreation opportunities. You can participate in all of these activities less than two hours from Portland.

Others may be referred to law enforcement agencies. Video recordings may become a part of a student's educational record or a staff member's personnel record. The district shall comply with all applicable state and federal laws related to record maintenance and retention.

STAFF OPERATIONS

ABSENCES (Board Policy GCBD/GDBD)

Staff members unable to report to work for any reason must notify the district substitute caller as soon as possible to ensure that appropriate substitute arrangements may be made. Substitutes are assigned on a daily basis unless a longer duration is specified.

In order to facilitate continuity during absences, staff members unable to return to their duties the following day should contact the substitute caller by 2:30 p.m. Whenever possible, and as appropriate, substitutes will be retained during the course of your absence.

Staff members may, at the time of the reported absence, request a particular substitute. Requests that a particular substitute not be called may be made in advance through the building principal only. Final decisions regarding substitute use or non-use will be made by the district. **Under no circumstances may staff members arrange coverage through personal arrangements with substitutes or others, either for all day or temporary absences from their duties.**

Substitute coverage for absences during work hours due to illness or emergency will be arranged as needed upon notification to the building principal.

An absence report form must be completed and returned to the building secretary for all staff absences including absences due to school or district related activities.

Paid and unpaid leaves are provided in accordance with collective bargaining agreements, established Board policy and federal and state law.

A covered employer is required to give an eligible employee leave, if they are a victim of domestic violence, harassment, sexual assault or stalking, or is a parent or guardian of a minor child or dependent who is a victim of domestic violence, harassment, sexual assault, or stalking. The leave may be unpaid.

ATTENDANCE / PUNCTUALITY

It is fundamental that regular attendance is an important factor in employment. The Board directs the superintendent to develop administrative rules to promote regular attendance on the part of all employees.

1. The importance of regular attendance will be stressed with new employees as a part of the district and work site orientation.
2. Regular attendance will be a factor to be considered as a part of each new licensed employee's probationary evaluation and in the determination to move a new licensed employee to regular, contract teacher, or contract administrator status.
3. Regular attendance will be a factor to be considered as a part of each employee's periodic evaluation.
4. Absenteeism will be considered chronic whenever the total number of absences within a school year (exclusive of vacation, bereavement, or contractual personal leave) exceeds an average one day per month for illness or injury, except in such cases as major surgery, recovery from a serious or life-threatening accident or illness, or as a result of a documented mental or physical impairment that constitutes a disability.

FEDERAL FAMILY AND MEDICAL LEAVE ACT (FMLA)/OREGON FAMILY LEAVE ACT (OFLA) Military Family Leave Act (MFLA) and Oregon Military Family Leave Act (OMFLA) (BOARD POLICY GCBDA/GDBDA)

Eligibility

In accordance with federal law, staff members employed by the district for the previous 12 months and who have worked at least 1250 hours during the year preceding the start of the leave may be eligible for FMLA leave. Staff members employed by the district at least 180 days prior to the first day of the family medical leave of absence and who have worked an average of 25 or more hours per week may be eligible for OFLA leave. There is no minimum average number of hours worked per week when determining employee eligibility for parental leave under OFLA.

Length/Purpose of Leave

Employees eligible for FMLA leave under federal law and/or OFLA leave under state law are entitled to take 12 work weeks of leave within a 12 month period for the:

1. Birth of the employee's child and for bonding with a newborn (eligibility expires 12 months after the birth);
2. Placement of a child with the employee for adoption or foster care or for bonding with a newly placed child when the child is under 18 (eligibility expires 12 months after placement) or when a child is older than 18 if incapable of self-care because of mental or physical disability;
3. Care of a family member with a serious health condition.
4. The staff member's own serious health condition;
5. Eligible employees may take FMLA leave for qualifying exigency while the employee's spouse, son, daughter or parent is on covered active duty or called to covered active duty status during the deployment with Armed Forces to a foreign country (C.F.R. sections 825.126(a)(1 and 2); Federal Register Vol. 78, No. 25, Page 8917);
6. Injured Service Member Leave, allows an employee leave to care for a covered service member who is the employee's spouse, son, daughter, parent or next of kin who has been injured in the line of duty as a member of the Armed Forces;
7. State law allows employees to take leave for the care of a sick or injured child who requires home care but is not suffering from a serious health condition. This includes leave to care for an employee's child whose school or child care provider has been closed (see OAR 839-009-0210(4)) in conjunction with a statewide public health emergency declared by a public official (the school may request verification). The district is not required to grant leave for routine medical or dental appointments (OFLA only);
8. State law allows employees to take leave for the death of a family member to attend the funeral or alternative to a funeral of the family member, make arrangements necessitated by the death of the family member or to grieve the death of a family member (OFLA only);
9. Military Family Leave, allows leave for a spouse partner of a military personnel per each deployment of the spouse partner when the spouse has either been notified of an impending call to active duty, has been ordered to active duty or has been deployed or on leave from deployment (OFLA only).

Contact the superintendent for additional information regarding length of leave, intermittent leave and alternative duty under state and federal law and provisions governing two family members eligible for FMLA or OFLA leave.

A serious health condition is defined differently under federal and state law. Contact the district office for details.

Contact the personnel office for additional information regarding the Military Family Leave Act (MFLA)/Oregon Military Family Leave Act (OMFLA).

Calculating the 12 Month Period for Leave

The district will use the same method for calculating the 12 month period in which the 12 work week FMLA and OFLA leave entitlement occurs for all employees. The district will use a "rolling" 12 month period measured backward from the date the employee uses any family and medical leave.

Leaves to care for covered service members has its own 12 month year beginning on the first day of leave regardless of the district's method of calculating the 12-month period for leave.

Paid/Unpaid Leave

Family leave under federal law is generally unpaid. Under state law, employees are entitled to access any accrued paid leave including paid sick leave for any OFLA qualifying event. The district requires the employee to use any accrued sick leave, vacation or personal leave days before taking FMLA and/or OFLA leave without pay for the leave period. When taking leave for illness of family members, the employee shall use available family illness leave, personal leave, and vacation leave before using their own sick leave.

The district will notify the employee that the requested leave has been designated as FMLA and/or OFLA leave and that accrued paid leave shall be used during the leave period. Such notification will be given to the employee prior to the commencement of the leave or within two working days of the employee's notice of an unanticipated or emergency leave. In the event the district is aware of an OFLA qualifying exigency, the district shall notify the employee of the intent to designate the leave as such regardless of whether a request has been made by the employee. Such notification will be given to the employee prior to the commencement of the leave or within two working days of the employee's notice of an unanticipated or emergency leave. When the district does not have sufficient information to make a determination of whether the leave qualifies as FMLA or OFLA leave, the district will provide the required notice promptly when the information is available but no later than two working days after the district has received the information. Oral notices will be confirmed in writing no later than the subsequent payday.

Application

Staff members requesting FMLA and/or OFLA leave shall submit to the district a written request at least 30 days prior to the anticipated leave date if the leave is foreseeable based on planned medical treatment. The notice shall include the anticipated starting and ending dates of the requested leave and an explanation of the need for the leave. Staff members are expected to schedule treatment, including intermittent leave and reduced hours, so as to not unduly disrupt the operation of the district.

If advance notice of FMLA leave, under federal law, is not possible, for example due to a change in circumstances or medical emergency, notice must be given as soon as practicable. "As soon as practicable" means at least oral notification within one or two business days of when the leave becomes known to the employee. Failure to provide the required notice for FMLA leave may result in the district delaying the staff member's leave for up to 30 days after the notice is ultimately given.

If advance notice of OFLA leave is not possible due to an unanticipated or emergency leave situation, oral or written notice is required within 24 hours. The district realizes that there may be circumstances when it is not possible to provide a 24 hour notice. Therefore, the staff member may designate a family member or friend to notify the district during that period of time. In either case, proper documentation must be submitted within three working days of the employee's return to work. Failure to provide the required notice for OFLA leave may result in the district deducting up to three weeks from the staff member's leave period.

Medical Certification

Staff members applying for FMLA and/or OFLA leave, may be required to provide medical documentation when appropriate to support the request for leave, other than to care for a child who requires home care due to the closure of the child's school or childcare provider as a result of a public health emergency. The district will provide written notification to employees of this requirement within five working days of the staff member's request for leave. If the employee provides more than 30 days' notice, they are required to submit such medical certification prior to the beginning of the leave. If the employee provides less than a 30 days' notice, they are required to submit such medical certification no later than 15 calendar days after receipt of the district's notification that medical certification is required.

Under federal law, a second medical opinion at the district's expense may be required whenever the district has reason to doubt the validity of the initial medical opinion. The health care provider may be selected by the district. The health care provider shall not be an individual employed by the district on a regular basis. Should the first and second medical certifications differ, a third opinion may be required. The district and employee will mutually agree on the selection of the health care provider for a third medical certification. The third opinion will be final. Second and third opinions and the actual travel expense for a staff member to obtain such opinions will be paid for by the district.

Under state law, the district may require a second opinion and designate the health care provider. Should the two opinions conflict, the district may require a third opinion and that the two providers designate the third health care provider. The third opinion will be final. Second and third opinions and the actual travel expenses for a staff member to obtain such opinions will be paid for by the district.

If the leave is for the purpose of an employee's own serious health condition, they must also provide a fitness for duty medical release from the health care provider before returning to work.

The district may require a staff member using OFLA leave to care for a sick child to provide medical certification after the use of more than three days of such leave in a one year period. The district will pay the cost of the medical certification not covered by insurance or other benefit plans.

Continuation of Health Insurance Benefits

Under federal and state law, group health insurance benefits and premium payments must be continued on the same basis as coverage would have been provided and premiums paid in the absence of the leave. The district will continue to pay the district's contribution toward the employee's premium. The employee will continue to pay the employee's share of premiums, if any. A 30 day grace period will be allowed for receipt of employee contributions. The district's obligation to maintain the employee's benefits will cease if the employee's contribution is more than 30 days late. The district will provide written notice that the premium payment is more than 30 calendar days late. Such notice will be provided within 15 calendar days before coverage is to cease.

Return to Work

Following FMLA or OFLA leave, a staff member is generally entitled to be returned to their former position or to an equivalent job with equivalent benefits, pay and other terms and conditions of employment, with certain exceptions. See the superintendent for details of this or any other provision of FMLA or OFLA leave.

ABUSE OF A CHILD REPORTING (JHFE)

Abuse of a child by district employees, contractors, agents, volunteers, or students is prohibited and will not be tolerated. All district employees, contractors, agents, volunteers, and students are subject to Board policy, JHFE – Reporting of Suspected Abuse of a Child, and the accompanying administrative regulation.

All staff will be required to participate in annual training in the prevention and identification of abuse of a child and the obligations of reporting.

Any staff member who has reasonable cause to believe that any child with whom the employee has come in contact has suffered abuse or neglect, shall immediately orally report or cause an oral report immediately by telephone or otherwise to the local office of the Oregon Department of Human Services, , or local law enforcement agency within the county where the person making the report is located at the time of the contact.

Any district employee who has reasonable cause to believe that **any** person with whom the employee is in contact has abused a child shall immediately report or cause a report to be made in the same manner to Oregon Department of Human Services (DHS), its designee, or to the law enforcement agency within the county where the person making the report is located at the time of the contact.

Any district employee who has reasonable cause to believe that another district employee, contractor, agent, volunteer, or student has engaged in abuse, or that a student has been subjected to abuse by another district employee, contractor, agent, volunteer, or student shall immediately report such to the DHS, its designee, or the local law enforcement agency pursuant to ORS 419B.015, and to the designated licensed administrator.

Written documentation of this report must be completed and submitted to one of the following:

Paul Erlebach, Superintendent
Heidi Buckmaster, Neah-Kah-Nie High School
Ryan Keefauver, Asst. Principal/Athletic Director

Lori Dilbeck, Principal, Neah-Kah-Nie Middle School
Kristi Woika, Principal, Nehalem Elementary School
Janmarie Nugent, Principal, Garibaldi Grade School
Ericka Keefauver, Special Education and Student Services Director

If the superintendent is the alleged perpetrator the report shall be submitted to the Heidi Buckmaster high school principal who shall also report to the Board chair.

Forms are available in the office.

Oregon law recognizes these types of abuse:

1. Physical;
2. Neglect;
3. Mental injury;
4. Threat of harm;
5. Sexual abuse or sexual exploitation.

Failure to report a suspected abuse of a child or to comply with the confidentiality of records requirements is a violation punishable by law and by district disciplinary action up to and including dismissal.

A staff member who, based on reasonable cause, participates in good faith in making of an abuse of a child report shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed as provided by law. A substantiated report of abuse by an employee shall be documented in the employee's personnel file. Intentionally making a false report of abuse of a child may be a Class A violation.

ADMISSION TO DISTRICT EXTRACURRICULAR ACTIVITIES

Staff members designated by the building principal with responsibility at extracurricular activities are admitted free of charge. All other staff members attending district extracurricular activities are assessed the uniform district admission rate, as established by the Board.

ANIMALS IN DISTRICT FACILITIES

The district recognizes that under the proper conditions animals can be an effective teaching aid. In order to protect both children and animals the following guidelines are adopted for use in all facilities in the district.

1. Permission must be obtained from the principal before animals are brought into the facility.
2. The only animals allowed to be housed in a classroom must be for a specific and appropriate educational purpose and shall be allowed for the amount of time necessary to achieve the educational goal.
3. All animals must be in good physical condition and vaccinated against transmittable diseases.
4. Special consideration should be given to the effect of furred and feathered animals on allergic children, before bringing the animals into the classroom.
5. The teacher will be responsible for the proper control of animals brought to school for instructional purposes, including effective protection of children when animals are in the school. This will include keeping the animal in an appropriate cage or container that prevents contact with fecal matter.
6. No animals are to be allowed to run freely in the classrooms, food areas, or activity areas.
7. No poisonous animals shall be brought into the school.
8. Animals serving persons with a disability must be certified by licensed animal training programs.

The principal/supervisor shall be advised of any animals to be housed in the classroom. At the principal's/supervisor's discretion, permission to keep the animal may be denied based on these considerations: (1) the purpose for the animal's presence, (2) the ability of the teacher to control the animal, and (3) the past practice in the classroom.

Permission is to be obtained from the principal before animals are brought into the school. Animals must be adequately cared for and appropriately secured. Only the teacher or students designated by the teacher are to handle the animals.

If animals are to be kept in the classroom on days when classes are not in session, arrangements must be made for their care.

Animals may not be transported on a school bus.

Animals serving those with disabilities would be an exception to this policy.

BREAKS

Scheduled breaks are provided to all nonexempt employees to ensure safety, efficiency and to meet the requirements of law. All classified staff members who work two (2) or more consecutive hours are entitled to one 40-15 minute break. Those working eight (8) hour days are entitled to two 15 minute breaks.

Nonexempt (e.g. includes some confidential) employees are expected to adhere to the break schedule established by the building principal. Deviation from the regularly scheduled break period requires prior principal approval.

CARE/USE OF DISTRICT PROPERTY (Board Policy KGF/EDC)

All staff members are encouraged to exercise continuous and vigilant care of all district owned property. Incidents of theft or willful destruction of district property through vandalism or malicious mischief should be reported immediately to a building administrator.

Certain district-owned equipment, including, but not limited to laptops, cell devices or iPads, may be checked-out by staff and district patrons. Such equipment may not be used for personal financial gain and/or avoidance of personal loss. An equipment use form must be submitted and approved. Forms are available in the office. There are no equipment use fees.

In the event of loss or damage, a fee will be assessed by the district according to the repair or replacement costs.

CASH IN DISTRICT BUILDINGS (Board Policy DM)

Moneys collected by staff as a result of fundraisers or other school-related purposes shall be handled with good and prudent business procedures.

Money collected within school buildings will be taken to the district's designated depository when the sum accumulated in any one day by a class, a teacher or others at any school exceeds \$25. Accumulated cash maintained in elementary school buildings overnight may not exceed \$50. The middle school may not exceed \$100.00. The high school must deposit any excess funds not required for daily operations.

Staff members are asked to emphasize to students the importance of promptly depositing money collected with appropriate school officials.

CHECKOUT (Board Policy GCKC)

Work Day Checkout

Teachers may leave the building and district grounds during lunch as necessary. Departures during preparation periods must be approved by the building principal or assistant principal. Classified staff are permitted to leave the building and district grounds during their lunch break.

All staff are required to check out/in with the office. This will enable office staff to respond appropriately in the event of messages and emergency situations that may arise.

Year End Checkout

The building principal or designee will oversee the completion of the Neah-Kah-Nie School District year end checkout procedures.

CLASSROOM SECURITY (Board Policy ECA)

When leaving the classroom, locker room or other work areas between classes or at the end of the day, teachers are expected to turn out the lights and secure all doors. Windows should also be secured at day's end.

proximity” means within walking distance from the employee’s work area that does not appreciably shorten the rest or meal period. If a private location is not within close proximity to the employee’s work area, the district may not include the time taken to travel to and from the location as part of the break period.

The following locations have been identified in each facility for milk expression [or breast-feeding]:

1. District office: Conference Room;
2. Garibaldi Grade School: Office next to counselor’s office;
3. Nehalem Elementary School: Conference Room;
4. Neah-Kah-Nie Middle School: Nurses Station;
5. Neah-Kah-Nie High School: Office next to the Attendance Secretary

An employee who expresses milk during work hours may use any available refrigeration to store the expressed milk. The district must allow the employee to bring a cooler or other insulated food container to work for storing the expressed milk and ensure there is adequate space in the workplace to accommodate the employee’s cooler or insulated food container.

This policy and the list of designated locations is published in the employee handbook. The list of designated locations is available upon request in the central office of each school facility and in the district’s central office.

This policy only applies to employees who are expressing milk or breast-feeding for children 18 months of age or younger.

Teachers are expected to inform the building principal of the date, time and nature of the presentation whenever such use is planned.

Prior building principal approval is required whenever the guest speaker and/or presentation may be reasonably considered controversial.

The district will implement such work practice controls, as appropriate.

Infection Control Procedures

Appropriate hygienic and sanitation practices have been established by the district as follows:

1. Standard precautions are to be followed at all times. Standard precautions require the assumption that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for HIV**, HBV*, and/or bloodborne pathogens;
2. Whenever possible, students will be directed to care for their own minor bleeding injury. This includes encouraging students to apply their own band-aids. If assistance is required, band-aids may be applied after removal of gloves, if caregiver will not come into contact with blood or wound drainage;
3. Food and Drug Administration (FDA) approved gloves are required for all tasks in which an individual may come into contact with blood or other potentially infectious materials. This also includes assisting with any minor wound care, treating bloody noses, handling clothes soiled by incontinence, diaper changing, and cleaning up vomit;

5. If exposure to blood or other potentially infectious materials occurs through coughing, any first-aid procedure or through an open sore or break in the skin, thorough washing, preferably with germicidal soap, is necessary;
6. In the event hand-washing facilities are not readily available, thorough cleaning using an antiseptic cleanser and clean cloth/paper towels or antiseptic towelettes provided by the district as an alternative is necessary. In the event alternatives are used, hands must be washed with soap and water as soon as feasible;
7. Contaminated work surfaces shall be decontaminated with an appropriate disinfectant after completion of procedures, immediately or as soon as feasible when surfaces are overtly contaminated or after any spill of blood or other potentially infectious materials, and at the end of the work shift if the surface may have become contaminated since the last cleaning. Clean surfaces with soap and water, and then rinse with an Environmental Protection Agency (EPA) approved disinfectant following labeling instructions for use or a freshly-made solution of one part bleach to nine parts water, and allow to

air dry. These surfaces include equipment, counters, mats (including those used in physical education classes and athletic events), toys, or changing tables;

8. An EPA-approved disinfectant must be used when cleaning fluids such as blood or vomit from the floor or other such contaminated surfaces;
9. Contaminated laundry such as clothing and towels must be placed and transported in bags and containers in accordance with the district's standard precautions. All such items must be laundered in hot or cold water and soap and placed in a dryer;

11. All wastebaskets used to dispose of potentially infectious materials must be lined with a plastic bag liner that is changed daily;
12. Gloves and repellent gowns, aprons, or jackets are required for tasks in which exposure to blood or other potentially infectious materials can be reasonably anticipated to contaminate street clothing. Type and characteristics of such protective clothing will depend on the task. Such tasks may include diapering/toileting with gross contamination, assisting with wound care, sorting or bagging contaminated laundry/clothing, and disposing of regulated waste with gross contamination;
13. Maximum protection with gloves, face and/or eye protection, and gowns are required whenever splashes, spray, spatter, or droplets of blood or other potentially infectious materials may be generated, and eye, nose, or mouth contamination can be reasonably anticipated. Such tasks may include feeding a student with a history of spitting or forceful vomiting and assisting with severe injury and wounds with spurting blood;
14. If a first-aid situation occurs, students should report to a person in authority, staff should report to a supervisor.

The district may consider a request for job sharing. Job sharing is defined as the sharing and occupation of a single staff position by two individuals with each assignment being half time.

The district's overall cost of job share may not exceed that of one full-time equivalency. The amount of fringe benefits as may be afforded in current collective bargaining agreements and normally assigned to one staff employee position is shared in a manner agreeable to both job sharing employees, providing the total dollar amount does not exceed the amount designated for one staff employee in a non-job sharing position.

Job sharing requests are considered on an individual basis and subject to superintendent approval. Consult the collective bargaining agreement for additional information and guidelines.

STAFF/PARENT RELATIONS (Board Policy GBH/JECAC)

The district encourages parents to be involved in their student's school experience. Teachers are advised that unless otherwise ordered by the courts, an order of sole custody on the part of one parent shall not deprive the other parent of certain rights. It is the responsibility of the parent with sole custody to provide to the district any court order or parental plan that curtails the rights of the noncustodial parent.

A noncustodial parent may receive and inspect the school records pertaining to their student and to consult with teachers concerning their student's welfare and education.

In the case of joint custody, it is the responsibility of the parents to provide the district, in writing, any special requests or clarifications in areas concerning the student and the district's relationship and responsibilities. Such information will be maintained on file in the office and provided to staff, as appropriate. Staff members with questions regarding custodial and/or noncustodial parent rights with respect to particular students should contact the office.

SUSPECTED SEXUAL CONDUCT (Reporting Requirements)

Sexual conduct by district employees, contractors, agents of the district, and volunteers is prohibited and will not be tolerated. All district employees, contractors, agents, and volunteers of the district are subject to Board policy, GBNAA/JHFF – Suspected Sexual Conduct with Students and Reporting Requirements.

"Sexual conduct" means verbal or physical conduct; or verbal, written, or electronic communications by a school employee, a contractor, an agent, or a volunteer that involves a student and that are: 1) sexual advances or requests for sexual favors directed toward the student; or 2) of a sexual nature that are directed toward the student or that have the effect of unreasonably interfering with a student's educational performance or of creating an intimidating, or hostile, educational environment. "Sexual conduct" does not include touching or other physical contact that is necessitated by the nature of the school employee's job duties or by the services required to be provided by the contractor, agent, or volunteer; and for which there is no sexual intent; verbal, written or electronic communications that are provided as part of an education program that meets state educational standards or a policy approved by the Board; or conduct or communications described in the definition of sexual conduct herein if the school employee, contractor, agent or volunteer is also a student and the conduct or communications arise out of a consensual relationship between students, do not create an intimidating or hostile educational environment and are not prohibited by law, any policies of the district or any applicable employment agreements.

“Student” means any person who is in any grade from prekindergarten through grade 12 or 21 years of age or younger and receiving educational or related services from the district that is not a post-secondary institution of education, or who was previously known as a student by the person engaging in sexual conduct and who left school or graduated from high school within 90 days prior to the sexual conduct.

Any district employee, contractor, agent, or volunteer who has reasonable cause to believe that a student has been subjected to sexual conduct by another district employee, contractor, agent or volunteer; or that another district employee, contractor, agent, or volunteer has engaged in sexual conduct with a student shall immediately report such suspected sexual conduct to the principal or the superintendent, in the event the designated licensed administrator is the suspected perpetrator, for their school building. If the superintendent is the alleged perpetrator the report shall be submitted to high school principal who shall report the suspected sexual conduct to the Board chair. If an employee fails to report suspected sexual conduct or fails to maintain confidentiality of records, the employee will be disciplined up to and including dismissal. If the conduct also constitutes child abuse, the employee must make mandatory reports in accordance with Board policy GBNAB/JHFE – Suspected Abuse of a Child Reporting Requirements.

When a principal receives a report of suspected sexual conduct by a district employee, contractor, agent or volunteer, the administrator will follow procedures established by the district and set forth in the district’s administrative regulation JHFF/GBNAA-AR - Suspected Sexual Conduct Report Procedures and Form. All such reports will be reported to the Oregon Department of Education (ODE) or Teacher Standards and Practices Commission (TSPC) in accordance with administrative regulation. The agency receiving a report will complete an investigation regardless of any changes in the relationship or duties of the person who is the alleged perpetrator.

When there is reasonable cause to support the report, a district employee suspected of sexual conduct shall be placed on paid administrative leave pending an investigation and the district will take necessary actions to ensure the student’s safety.

When the designee receives a report of suspected sexual conduct by a contractor, an agent or a volunteer, the district shall prohibit the contractor, agent or volunteer from providing services to the district. If the district determines there is reasonable cause to support the report, a district contractor, agent or volunteer suspected of sexual conduct shall be removed from providing services to the district and the district will take necessary actions to ensure the student’s safety.

An “investigation” means a detailed inquiry into the factual allegations of a report of suspected sexual conduct that is based on interviews with the person who initiated the report, the person who may have been subjected to sexual conduct, witnesses, and the person who is the subject of the report; and results in a finding that the report is a substantiated report, cannot be substantiated, or is not a report of sexual conduct. If the subject of the report is a district employee represented by a contract or a collective bargaining agreement, the investigation must meet any negotiated standards of an employment contract or agreement.

If, following the investigation, the district decides to take an employment action, the district will inform the district employee of the employment action to be taken and provide information regarding the appeal process. The employee may appeal the district’s decision through the appeal process provided by the district’s collective bargaining agreement.

A “substantiated report” means a report of sexual conduct that TSPC or ODE determines is founded.

If the district employee decides not to appeal the employment action or if the determination of an appeal is sustained, the district shall create a record of the findings of the substantiated report and the employment action taken by the district will be placed in the records of the school employee maintained by the district. This information may be disclosed to a potential employer.

The initiation of a report in good faith about suspected sexual conduct may not adversely affect any terms or conditions of employment or the work environment of the person who initiated the report or who may have been subject to sexual conduct. If a student initiates a report of suspected sexual

conduct by a Board member, district employee, contractor, agent of the district, or volunteer in good faith, the student will not be disciplined by the Board or any district employee, contractor, volunteer, or agent of the district.

The district will provide to employees at the time of hire, or to a contractor, agent or volunteer at the time of beginning service for the district, the following:

1. A description of conduct that may constitute sexual conduct;
2. A description of the investigatory process and possible consequences, if a report of suspected sexual conduct is substantiated; and
3. A description of the prohibitions imposed on district employees, contractors, and agents when they attempt to obtain a new job, pursuant to ORS 339.378(2).

A district employee shall access, each school year, information and training made available by the district on prevention and identification of sexual conduct, the obligations of employees under ORS 339.388 and 419B.005 - 419B.050 and under adopted board policies to report suspected sexual conduct, and appropriate electronic communications with students.

A district employee, contractor or agent will not assist another district employee, contractor or agent in obtaining a new job if the individual knows, or has reasonable cause to believe the district employee, contractor or agent engaged in sexual conduct. Nothing in this policy prevents the district from disclosing information required by law or providing the routine transmission of administrative and personnel files pursuant to law.

SUPERVISION OF STUDENTS (Board Policy JHFA)

Staff members are responsible for the supervision of all students while in school or engaged in school sponsored activities.

All teachers are expected to be in their classrooms prior to the arrival of students.

Under no circumstances are classrooms or other areas where students are under the supervision of assigned staff to be left unattended while students are present. Teachers who may need to temporarily leave the classroom or their assigned duties in an emergency situation while students are present are expected to contact the office to arrange for temporary coverage.

No other staff member may leave their assigned group unsupervised except as appropriate supervision arrangements have been made to take care of an emergency.

The district will register as a user of such with ODA.

Publicly supported K-12 school programs and publicly supported entities that support K-12 schools or after school K-12 programs are exempt from the requirement to pay the ODA registration fee.

Any employee, volunteer, or representative of the district operating an unmanned aircraft system shall do so in accordance with Board policy, all applicable FAA, and ODA regulations, and local laws.

A UAS operated at Oregon School Activities Association (OSAA) sanctioned events will do so in accordance with OSAA policies.

Prior to operating a UAS, the district will review all airspace, certification, registration, and other requirements. When operating in the National Airspace System (NAS), the supervisor (instructor/teacher) of the educational UAS shall hold a current pilot certification described in 14 C.F.R. Part 107 or have a Certificate of Authorization as described in 49 U.S.C. § 44801, so any student(s) can fly under their direct supervision, and be in compliance with current FAA regulations. District staff will not operate more than one UAS at the same time.

District employees will work with administrators to ensure that proper insurance, registration as required by FAA and ODA: reporting to FAA, and authorization from district administration are in place prior to use as a part of the district's curriculum.

USE OF PRIVATE VEHICLES FOR DISTRICT BUSINESS (Board Policy EEBB)

The use of private vehicles for district business, including the transportation of students, is generally discouraged. Staff members should use district-owned vehicles whenever possible, and schedule activities and other transportation far enough in advance to avoid any use of private vehicles. VOLUNTEERS (Board Policy IICC)

The district encourages the constructive participation of groups and individuals in the school to perform appropriate tasks during and after school hours under the direction and supervision of staff. Every effort should be made to use volunteer resources in a manner which will ensure maximum contribution to the welfare and educational growth of students.

Staff members interested in securing the services of a volunteer or with names of individuals expressing an interest in volunteering should contact the office. Any individual considered for volunteer service with the district who is allowed to have direct, unsupervised contact with students shall submit to an in state criminal records check.

The district shall require a state and national criminal records check based on fingerprinting for a volunteer with direct, unsupervised contact with students in the following positions:

1. Head coaches;

2. Assistant coaches;
3. Overnight chaperone;
4. Volunteers transporting students, other than their own, in a private vehicle off district property for a district-sponsored activity.
5. Volunteer coach

The use of volunteers requires prior building principal approval. Forms are available in the office.

Any electronic communications with students by a volunteer for the district will be appropriate and only when directed by district administration. When communicating with students electronically regarding school-related matters, volunteers shall use district email using mailing lists and/or other internet messaging to a group of students rather than individual students or as directed by district administration. Texting or electronically communicating with a student through contact information gained as a volunteer for the district is prohibited.

WEAPONS (Board Policy JFCJ)

In accordance with Oregon law, any district employee who has reasonable cause to believe a student or other person has, within while in a school, is or has within-the previous 120 days, has unlawfully been in possession of a firearm or destructive device as defined by the district's weapons policy, shall immediately report such violation to an administrator, or designee or law enforcement. Employees who report directly to law enforcement shall also immediately inform an administrator.

Administrators shall promptly notify the appropriate law enforcement agency of staff reports received and at any other time there is reasonable cause to believe violations for firearms or destructive devices have occurred or that a student has been expelled for bringing, possessing, concealing or using a dangerous or deadly weapon, firearm or destructive device. Parents will be notified of all conduct by their student that violates the district's weapons policy.

A person making a report as described above who has reasonable grounds for making the report is immune from liability, civil or criminal, that might otherwise be incurred or imposed with respect to the making or content of the report in accordance with ORS 339.315(1)(b). An employee's good faith and reasonable belief shall serve as an affirmative defense to civil or criminal charges related to the employee's disclosure of lawfully accessed information related to the violation, including information that is exempt from disclosure by public records law.

The district will use the complaint process in administrative regulation KL-AR - Public Complaints Procedure to address any alleged violations of this policy.

STUDENT OPERATIONAL PROCEDURES

ASSEMBLIES

Students are required to attend all assemblies. Those who refuse are to be referred to the office.

All staff are assigned to specific supervision duties during assemblies and are expected to be in their assigned areas.

Students may be removed from an assembly as deemed necessary by the staff member. Generally, all students should be dealt with directly and/or referred to the office in accordance with established building discipline procedures.

ASSIGNMENT OF STUDENTS TO CLASSES

The assignment of students and classes to teachers is the responsibility of the building principal. Parents have the right to discuss student class assignments with counselors and the building principal.

Any request to change a student's assignment to a particular class by a student, parent or teacher should be referred to counselors or the building principal.

Students are to be added or dropped from teacher class rosters only when the student presents an add/drop slip from the counseling office or when otherwise notified by the office.

Any student with the proper add slip, or who has otherwise been added to a particular class by the counseling office is to be admitted to class. Teachers with questions regarding a student's placement should contact the counseling office.

CLASS INTERRUPTIONS

The district is committed to protecting instructional time. Class interruptions of any kind will be kept to a minimum. Students are not to be permitted to interrupt a class in session without authorization. Intercom use is restricted to administrative use or administrative approved use only.

CONTESTS FOR STUDENTS (Board Policy IGDH)

The district cooperates with individuals, community organizations and agencies desiring to sponsor contests for students, when such activities can be integrated into the school program without disruption or loss of instructional time for the student and without imposing an unreasonable added workload on staff. All such contests must be consistent with the purposes and educational aims of the district.

Teachers sponsoring such activities are responsible for the preparation and circulation of all informational materials and for other administrative work required in the grading, judging or evaluation of the participant's work.

The school may not be used to promote private or commercial interests. Nor may the school be used for the direct sales promotion of individual competitive goods or services.

Materials or activities initiated by private sources are to be referred to the principal for approval and will be judged on grounds of their direct contribution to educational values, factual accuracy and good taste.

CORPORAL PUNISHMENT (Board Policy JGA)

The use of corporal punishment in any form against a student is strictly prohibited by the district and will be considered cause for discipline up to and including dismissal. Corporal punishment is defined as the willful infliction of, or willfully causing the infliction of physical pain on a student. No teacher, administrator or other school personnel will subject a student to corporal punishment or condone the use of corporal punishment by any person under their supervision or control. Permission to administer corporal punishment will not be sought or accepted from any parent or school official.

A staff member is authorized to employ reasonable physical force upon a student when, and to the extent the application of physical force is consistent with ORS 339.285-339.303 (Restraint and Seclusion). Physical force shall not be used to discipline or punish a student.

Corporal punishment does not include physical pain or discomfort resulting from or caused by:

Training for or participation in athletic competition or other such recreational activity, voluntarily engaged in by a student;
It does not include physical exertion shared by all students in a teacher directed class activity, which may include, but is not limited to, physical education exercises, field trips or vocational education projects;

DISMISSAL OF CLASSES

Teachers should never dismiss a class before the established dismissal time. Detaining the entire class after dismissal time is also discouraged. Whenever individual students are detained after class, the teacher is expected to provide the student a note for the student's next class teacher. This will help reduce unnecessary hall traffic as students reporting to class late will need to account for their tardiness.

DRUG AND ALCOHOL PREVENTION, HEALTH EDUCATION (Board Policy IGAEB)

Students have a right to attend school in an environment conducive to learning. The district will not tolerate the possession, sale or use of unlawful and harmful drugs (illicit drugs, nontherapeutic use of prescribed drugs, misuse of solvents and other dangerous substances and drug paraphernalia), alcohol or tobacco in the schools, on district property, on a school bus or while participating in any school-sponsored activity, whether on district property or at sites off district property.

An age-appropriate drug, alcohol and tobacco prevention curriculum is provided for all students in grades K-12 as a part of the health education curriculum. For students in grades 9-12 not enrolled in health education classes, a program of activities which meets the requirements of the drug, alcohol and tobacco prevention rule has been developed. At least annually, high school students will receive age-appropriate instruction.

Each year, a planned staff development and public information program that addresses the needs and responsibilities for the entire staff is developed by the superintendent. The program includes current basic drug, alcohol and tobacco information and an explanation of district drug, alcohol and tobacco policies, procedures and programs. The input of staff in planning and implementing the district's staff development and public information program is encouraged to ensure a drug, alcohol and tobacco program that best meets the needs of district students.

EMERGENCY DRILLS (Board Policy EBCB)

All teachers are required to provide instruction on fire, earthquake, safety threats and tsunami dangers and drills for at least 30 minutes each school month in accordance with the requirements of law. Oregon Fire Code requires at least one fire drill to be conducted within the first 10 days of the school year.

At least one fire drill, which include routes and methods of exiting the school building, will be conducted each month for grades K-12. At least one fire drill will be conducted within the first 10 days of the school year.

At least three drills on earthquakes that include tsunamis drills will be conducted each year. Drills and instruction on tsunami emergencies will include immediate evacuation after an earthquake when appropriate or after a tsunami warning. At least two drills on safety threats will be conducted each year. Drills and instruction on safety threats shall include procedures related to lockdown, lockout, shelter in place, evacuation and other actions to take when there is a threat to safety.

A map of the fire and/or tsunami hazard escape route to be followed is to be posted near classroom doorways and reviewed with students.

The warning signal for a fire alarm/drill is a continuous alarm. Upon the sounding of a fire alarm, teachers are required to:

1. Immediately direct all students to orderly exit the building using the evacuation route posted. Students may not stop at lockers, drinking fountains, restrooms, etc. along the way;
2. Close windows, turn off lights and lock door/leave door unlocked;

1. Immediately direct all students to "drop, cover and hold." Students should drop to a crouched position with head bent to knees, hands clasped behind the neck, arms against ears, eyes closed and back towards the windows. The Board holds that the showing of feature films/videos must have educational relevance to the class content that is being taught at the time of the showing. Since the content of these feature films is customarily designed for general audience viewing, the Board feels certain precautions should be taken to ensure that the showing of a particular film is consistent with the educational values espoused by the district. The Board directs that procedures be developed to accomplish this objective, including the provision that a parent has the opportunity to preview a film when practicably possible and that a parent must give prior consent before his/her student may view a film as indicated in the table below. Middle School 6-8:

1. "G" and "PG" rated films may be shown with prior building principal approval. Prior parental notification is not required.
2. "PG-13" rated films may be shown with prior building principal approval. Prior parental notification and permission is also required.

Senior High 9-12:

1. "G," "PG" and "PG-13" rated films may be shown with the prior building principal approval. Prior parental notification is not required.

All Levels:

1. Instructors are required to preview all film media before showing to students;
2. Edited or unrated films/video may be shown at the discretion and with the prior approval of the building principal;
3. If a parent, following notification by the instructor of the showing of a PG, PG-13 or R rated film, objects to his/her student viewing such film, an alternative learning activity will be provided.

Outside the Classroom:

The building principal will be responsible for any showing of films that would be of entertainment value at a non-class time such as lunch or after school hours.

FIELD TRIPS AND SPECIAL EVENTS (Board Policy II CA)

Field trips and other curricular/co-curricular activities involving travel may be authorized by the superintendent or designee when such trips or activities contribute to the achievement of desirable educational/social/cultural goals.

Requests should be submitted to the principal well in advance of the proposed activity. All such requests will be considered based on such factors as availability of funds, the educational value derived, the safety and welfare of the students involved, impact on the regular school program and availability of appropriate supervision, either from within school staff or from volunteers.

Written parental permission must be obtained for each approved trip. Teachers are expected to submit the signed forms showing parental approval and acknowledgement of the student conduct guidelines to the office prior to departure for the scheduled activity.

Staff members should contact the office for appropriate substitute and vehicle arrangements and related field trip procedures and forms. Any out-of-state travel must be approved by the Board.

FLAG SALUTE

Students will be provided an opportunity to salute the United States flag at least once a week by reciting *The Pledge of Allegiance*. Individual staff members and students who do not participate in the salute must maintain a respectful silence during the salute.

Each classroom is required to display a United States flag of an appropriate size.

GRADING (Board Policy IK and IKAD)

The evaluation of student progress is a primary responsibility of all teachers. The highest possible level of student achievement is a common goal of both the district and parents. As a close working relationship between the district and parents is essential to the accomplishment of this goal, regular communications with parents are essential.

Teachers are expected to report at least annually, a student's progress toward achieving academic content standards to the student and their parents. Parents will receive reports on their student's absences.

Teachers should use a variety of communication devices, including phone and personal conferences, as well as written grade reports to keep parents well informed. At the beginning of the grading period, students and parents are to be informed regarding the basis of the grades and the methods to be used in determining grades.

Letter grades will be used as follows:

- A – Superior
- B – Above Average
- C – Average
- D – Below Average
- F – Failing
- P – Pass – Credit granted, nongraded course
- NP – No pass – Credit denied, nongraded course
- I – Incomplete
- W – Withdrawal

Grading will be conducted on a twelve-week (trimester) basis.

Grade reduction or credit denial based on a student's attendance may be permissible only when the student's attendance is not used as a sole criterion for the grade reduction or credit denial. Prior to a grade reduction or credit denial, teachers are required to provide notice to the student, parents or guardians that includes the following information:

1. Identification of how the attendance and class participation is related to the instructional goals of the subject or course;
2. Parents and students will be informed;
3. Procedures ensuring due process are available to the student when the grade is reduced or credit denied for attendance rather than academic reasons;

4. Reasons for nonattendance are considered and the grade is not reduced or credit denied based upon absences due to:
 - a. Religious reasons;
 - b. A student's disability; or
 - c. An excused absence, as determined by the district's policy.

Procedures affording due process will be provided to all students whose grade is reduced or credit denied for attendance rather than academic reasons. Reasons for the student's absence will be considered. Notice of such criteria must be included in each teacher's syllabus and distributed to students at the beginning of the grading period.

Special education students are to receive grades based on progress toward goals as stated in the student's individualized education program (IEP).

HUMAN SEXUALITY, HIV/AIDS, SEXUALLY TRANSMITTED DISEASES, HEALTH EDUCATION (Board Policy IGAI)

Human sexuality, HIV/AIDS* and sexually-transmitted infections and disease prevention curriculum has been cooperatively developed and aligned with the Oregon Health Education Standards and Benchmarks, by parents, teachers, administration, local health department staff and others as an integral part of health education and other subjects. The HIV/AIDS and sexually transmitted infections and disease prevention education and the human sexuality education comprehensive plan shall provide adequate instruction at least annually, for all students in grades 6 through 8 and at least twice during grades 9 through 12.

Teachers are expected to notify parents of minor students in advance that the material regarding any human sexuality or HIV/AIDS/HBV will be taught. Any parent may request their student be excused from that portion of the instructional program.

A part of the comprehensive plan of instruction shall provide age-appropriate child sexual abuse prevention instruction for students in kindergarten through grade 12.

* HIV - Human Immunodeficiency Virus; AIDS - Acquired Immune Deficiency Syndrome; HBV - Hepatitis B Virus

MAKE-UP WORK

A student who has an excused absence from class is to be permitted to make up those assignments that they have missed. The student is expected to make arrangements with the teacher on their first day back in class for the work missed due to absence.

Any student truant from school will be permitted to make up missed work at the discretion of the teacher.

A student suspended from school is to be permitted, as provided by Oregon Administrative Rule, to make up school work upon return from the suspension if the work reflects achievement over a greater period of time than the length of the suspension. For example, the student is allowed to make up final, midterm and unit examinations, without an academic penalty. Students will be allowed to make up daily assignments, laboratory experiments, class discussions, or presentations missed while under suspension.

MEDIA ACCESS TO STUDENTS (Board Policy JOD)

The media may be allowed to interview and photograph students involved in instructional programs and school activities including athletic events. Such media access may not be unduly disruptive and must comply with Board policies and district goals.

Media representatives shall be required to report to the principal for prior approval before accessing students involved in instructional programs and activities not attended by the general public.

Information obtained by media representatives directly from students does not require parental approval prior to publication by the media. Parents who do not want their student interviewed or photographed by the media may direct their student accordingly.

Staff may release student information to the media only in accordance with applicable provisions of the education records law and Board policies governing directory information and personally identifiable information.

MOVING CLASS/HOLDING CLASSES OUTDOORS

From time to time, teachers may find it necessary to temporarily move a class from their scheduled room or teaching area. Teachers are responsible for ensuring that both the office and students are informed of the change.

As holding classes outdoors often presents a distraction to students in the class as well as to staff and students in other classrooms, teachers are expected to conduct their classes in their scheduled rooms unless otherwise assigned by the building principal.

From time to time, certain class assignments may be more appropriately conducted outdoors. Prior building principal approval is required for all such activities.

MEDICATIONS (Board Policy JHCD/JHCDA)

The district recognizes that administering of nonprescription and prescription medication to students and/or self-medication may be necessary when the failure to take such medication during school hours would prevent the student from attending school.

The district reserves the right to reject a request to administer or allow self-administration of a medication when such medication is not necessary for the student to remain in school.

Medication will be handled, stored, monitored, disposed of and records maintained in accordance with established district regulations governing administering non injectable or injectable, or prescription or nonprescription medicines to students, including procedures for the disposal of sharps and glass.

This policy and administrative regulation shall not prohibit, in any way, the administration of recognized first aid to students by district employees in accordance with established state law, Board policy and procedures.

Nonprescription Medication

A request to the district to allow a student to self-medicate with a nonprescription medication shall include written permission and instruction from a parent or guardian, and shall include an assurance from the parent or guardian that the student has received appropriate instruction for its use. A request to the district to administer a nonprescription medication shall include written permission and instruction from a parent or guardian. The district shall designate school staff authorized to administer medication to students. Training shall be provided as required by law.

The superintendent shall develop administrative regulations as needed to meet the requirements of law, Oregon Administrative Rules and for the implementation of this policy.

Prescription Medication

When prescribed by a physician, students in grades K-12 will be allowed to self-administer prescription medication, including medication for asthma or severe allergy as defined by state law, and subject to age appropriate guidelines. A written treatment plan for a student who self-administers medication will be developed and signed by a physician or other Oregon licensed health care professional and kept on file. A written request and permission form signed by a parent or guardian is required and will be kept on file. If the student is deemed to have violated Board policy or medical protocol by the district, the district may revoke the permission given to a student to self-administer medication.

The superintendent will require that an individualized health care plan is developed for every student with a known life-threatening allergy and for every student for whom the district has been given proper notice of a diagnosis of adrenal insufficiency. Such a plan will include provisions for administering medication and/or responding to emergency situations while the student is in school, at a school-sponsored activity, under the supervision of school personnel, in before- or after-school care programs on school-owned property and in transit to or from school or school-sponsored activities.

The district recognizes a need to ensure the health and well-being of students who require regular doses or injections of medication as a result of experiencing a life-threatening allergic reaction or adrenal crisis, or have a need to manage hypoglycemia, asthma or diabetes. When a licensed healthcare professional is not immediately available, a designated trained staff member may administer to a student, epinephrine, glucagon or other medications as prescribed and allowed by Oregon law.

A request for the district to administer prescription medication to a student shall include the written permission of the parent or guardian and shall be accompanied by written instruction from a physician, physician assistant or nurse practitioner. A prescription label prepared by a pharmacist will be deemed sufficient to meet the requirements for a physician's order.

A premeasured dose of epinephrine may be administered by designated, trained district staff to any student or other individual on school premises who the personnel believe, in good faith, is experiencing a severe allergic reaction, regardless of whether the student or individual has a prescription for epinephrine.

A process shall be established by which, upon parent written request, a backup prescribed auto injectable epinephrine is kept at a reasonable, secured location in the student's classroom as provided by state law. Training shall be provided to designated staff as required by law in accordance with approved protocols as established by the Oregon Health Authority. Staff designated to receive training shall also receive bloodborne pathogens training. Current first-aid and CPR cards are strongly encouraged for designated staff.

The superintendent will ensure student health management plans are developed as required by training protocols, maintained on file and pertinent health information is provided to district staff as appropriate.

NON-SCHOOL SPONSORED STUDY AND ATHLETIC TOURS/TRIPS/COMPETITIONS

The district does not sponsor, endorse or financially contribute to the variety of outside-sponsored study and athletic tours/trips/competitions available to students.

Students who raise funds for their personal participation in such activities may not raise monies for travel and other activity expenses as a representative of the school. Students may not use school supplies, materials or facilities in conjunction with such trips or their related fundraising.

Staff members are prohibited from using their contact with students to advertise or recruit for summer or other holiday travel activities not sponsored by the district which involve their supervision of students. Staff may not advise parents regarding selection of such trips or tours for their students.

The counseling center may contain pamphlets which will assist parents who have questions about selection of such activities.

PROGRAM EXEMPTIONS (Board Policy IGBHD)

Students may be excused from a state required program or learning activity for reasons of religion, disability or other reasons deemed appropriate by the district, upon the written request of the parent. The request shall include the reason(s) for the request and a proposed alternate activity.

RELEASE TIME FOR RELIGIOUS INSTRUCTION (Board Policy JEFB)

Students may be excused from school for religious instruction, not to exceed two hours for grades 1-8 and five hours for grades 9-12 in any school week. Teachers will be notified by the office of any students in their class so excused.

Any student unable to attend classes on a particular day due to religious beliefs is to be excused from attendance requirements for that day.

No such absences shall be counted against a student in determining failure or reduction of grades. Any tests and assignments a student misses because of such absences are to be given to the student upon return to school or at such other times as may be deemed appropriate by the teacher.

RESTRAINT OR SECLUSION (Board Policy JGAB)

The district has developed a policy and administrative regulation to define the circumstances that must exist and the requirements that must be met prior to, during, and after the use of restraint or seclusion as an intervention with district students.

If restraint or seclusion continues for more than 30 minutes school staff will attempt to immediately notify parents or guardians verbally or electronically. If restraint or seclusion continues for more than 30 minutes the student must be provided with adequate access to bathroom and water every 30 minutes. If restraint or seclusion continues for more than 30 minutes, every 15 minutes after the first 30 minutes, an administrator for the district must provide written authorization for the continuation of the restraint or seclusion, including providing documentation for the reason the restraint or seclusion must be continued.

Following an incident involving the use of restraint or seclusion, school staff will provide parents or guardians of the student the following:

1. Verbal or electronic notice of the incident by the end of the school day when the incident occurred.
2. Written documentation of the incident within 24 hours that provides:
 - a. A description of the restraint or seclusion including:
 1. The date of the restraint or seclusion;
 2. The times the restraint or seclusion began and ended; and
 3. The location of the incident.
 - b. A description of the student's activity that prompted the use of the restraint and seclusion;
 - c. The efforts to de-escalate the situation and the alternatives to restraint or seclusion that were attempted;
 - d. The names of staff of the district who administered the restraint or seclusion;
 - e. A description of the training status of the staff of the district who administered the restraint or seclusion, including any information that may need to be provided to the parent or guardian; and
 - f. Timely notification of a debriefing meeting to be held and of the parent's or guardian's right to attend the meeting.
3. If the restraint or seclusion was administered by a person without training, the administrator will ensure written notice is issued to the parent or guardian of the student that includes the lack of training, and the reason why a person without training administered the restraint or seclusion. The administrator will ensure written notice of the same to the superintendent.

4. An administrator will be notified as soon as practicable whenever restraint or seclusion has been used.
5. Whenever restraint or seclusion extends beyond 30 minutes, staff of the district will immediately attempt to verbally or electronically notify a parent or guardian.
6. A district Restraint and/or Seclusion Incident Report must be completed and copies provided to those attending the debriefing meeting for review and comment. The completed Restraint and/or Seclusion Incident Report Form shall include the following:
 - a. Name of the student;
 - b. Name of staff member(s) administering the restraint or seclusion;
 - c. Date of the restraint or seclusion and the time the restraint or seclusion began and ended;
 - d. Location of the restraint or seclusion;
 - e. A description of the restraint or seclusion;
 - f. A description of the student's activity immediately preceding the behavior that prompted the use of restraint or seclusion;
 - g. A description of the behavior that prompted the use of restraint or seclusion;
 - h. Efforts to de-escalate the situation and alternatives to restraint or seclusion that were attempted;
 - i. Information documenting parent or guardian contact and notification.
7. A documented debriefing meeting must be held within two school days after the use of restraint or seclusion; staff members involved in the intervention must be included in the meeting. The debriefing team shall include an administrator. Written notes shall be taken and a copy of the written notes shall be provided to the parent or guardian of the student.
8. If serious bodily injury or death of a student occurs in relation to the use of restraint or seclusion, written notification of the incident must be provided to the Department of Human Services within 24 hours of the incident.
9. If serious bodily injury or death of a staff member occurs in relation to the use of restraint or seclusion, written notification of the incident must be provided to the superintendent within 24 hours of the incident, or to the union representative for the affected person, if applicable.
10. The district will maintain a record of each incident in which injuries or death occurs in relation to the use of restraint or seclusion.

Use of restraint and/or seclusion in an emergency with a student who does not have restraint or seclusion as a part of their IEP or Section 504 plan is subject to all of the requirements established by Board policy JGAB - Use of Restraint or Seclusion and its administrative regulation with the exception of those specific to plans developed in an IEP or Section 504 plan.

RESUSCITATION DECISIONS/LIFE-SUSTAINING EMERGENCY CARE

No staff member may comply with any directive from parents or others, written or verbal, that life-sustaining emergency care be withheld from a student in need of such care while under the control and supervision of district staff.

Life sustaining emergency care means any procedure or intervention applied by appropriately trained district staff that may prevent a student from dying who, without such procedure or intervention, faces a risk of imminent death. Examples of life-sustaining emergency care may include: efforts to stop bleeding, unblocking airways, mouth-to-mouth resuscitation and cardiopulmonary resuscitation (CPR).

In a life threatening situation, staff members are expected to dial 911 for paramedic assistance and provide life sustaining emergency care to any student requiring it in order to sustain life until relieved by paramedics or other appropriate medical personnel.

RETENTION OF STUDENTS (Board Policy IKE)

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgment of the professional staff, such exceptions are in the best educational interest of the students involved. A recommendation for retention or promotion of a student will be made only after prior notification and explanation to the student's parent or guardian. The final decision for promotion or retention will rest with school administration.

STUDENT ACTIVITY FUNDS (Board Policy IGDG)

All moneys raised or collected by and/or for school-approved student groups are to be receipted and deposited into a checking account administered by the principal and reported to the business office. All student activity fund expenditures must be approved by the principal and person in charge of the student activities program.

All expenditures from the general account of student activity funds must also be approved by the school-recognized student government organization if such organization exists. Funds derived from the student body as a whole shall be expended to benefit the student body as a whole.

All expenditures from a specific account of student activity funds related to other school-recognized student groups must be approved by the members of that organization and their staff advisor. Funds derived from authorized clubs and organizations shall be expended to benefit the specific club or organization and, to the extent possible, to benefit those students currently in school who have contributed to the accumulation of the funds.

STUDENT CONDUCT (Board Policy JFC)

All students are to comply with district policies and administrative regulations, written building and classroom rules, pursue the prescribed course of study, submit to the lawful authority of teachers and school officials and conduct themselves in an orderly manner at school during the school day and during school-sponsored activities.

In addition to adopted Board policies governing student conduct, school rules specifying student conduct expectations have been established. These rules apply to actions which occur on district property; at any district-sponsored activity regardless of location; or when traveling to or from school or district-sponsored activities on transportation provided or approved by the district; at the bus stop; or whenever such conduct causes a substantial and material disruption of the educational environment or the invasion of rights of others.

A student handbook, code of conduct or other document shall be developed and distributed to parents, students and employees. Each school shall publish any additional rules specific to the school and distribute it to students and parents.

Disregard of these rules constitutes grounds for suspension, expulsion or other reasonable disciplinary action.

Student conduct rules unique to individual classrooms may also be developed by teachers. All such rules must be consistent with district policies, administrative regulations and school rules governing student conduct and discipline. Classroom rules and consequences are to be reviewed with students, posted in classrooms and made available to parents.

STUDENT DETENTION (Board Policy JGB)

Teachers may detain a student after school hours for disciplinary reasons provided the parent has been notified of the detention and, in the case of bus students, prior arrangements have been made for the student's transportation home.

Parents may be asked to arrange for the transportation of the detained student; however, if the parent cannot or will not provide it, an alternative disciplinary procedure must be substituted. Students who are detained after school are not to be left unsupervised during their detention.

STUDENT DISCIPLINE (Board Policy JG/JGDA/JGEA)

Student discipline, whether in the classroom, building, district grounds or at district-sponsored activities regardless of location, is the responsibility of all staff. Student conduct infractions are listed in the *Student/Parent Handbook*. Student discipline will offer corrective counseling and sanctions that are age appropriate, and to the extent possible, are shown through research to be effective.

The use of out-of-school suspension or expulsion for discipline of a student in the fifth grade or below, is limited to:

1. Nonaccidental conduct causing serious physical harm to a student or employee;
2. When a school administrator determines, based on the administrator's observation or upon a report from an employee, the student's conduct poses a threat to the health or safety of students or employees; or
3. When the suspension or expulsion is required by law.

Students may be expelled for any of the following circumstances: a) when a student's conduct poses a threat to the health or safety of students or employees; b) when other strategies to change the student's behavior have been ineffective, except that expulsion may not be used to address truancy; or c) when required by law. The district shall consider the age of the student and the student's past pattern of behavior prior to imposing the suspension or expulsion.

The following behavior referral process has been established to assist staff in dealing with student misconduct:

Minor Violations

1. With the first offense, the staff member describes the inappropriate behavior, provides an opportunity for the student to be heard, describes appropriate behavior, if necessary, and informs the student that subsequent violations will result in a parent contact by the teacher. Document with student's response and signature.
2. With a second offense, the staff member describes the inappropriate behavior, provides the student with an opportunity to be heard, describes appropriate behavior, if necessary, and informs the student that they are now on Step 2. Contact parents with details and inform parents and student that further violations [of the same rule] will result in a referral to the office for disciplinary action. Document with student's response and signature.
3. With a third offense, the staff member confronts the student, describes the inappropriate behavior, provides the student with an opportunity to be heard, and if necessary, document with student's response and signature. Submit form to the office for administrative action.

This three-step process is to be followed throughout the grading period. At the beginning of each new term, students are afforded a clean slate and the process begins anew. Students referred to the office for a third offense may begin anew or be continued with Step 2 or 3 actions, as deemed appropriate by the teacher in consultation with the administration.

Severe Violations

All students with severe violations are to be referred to the office immediately. A complete student incident referral form must be submitted at the time the student is sent to the office. If a student refuses to report to the office as directed or the teacher deems it necessary for the student to be accompanied to the office, the office should be contacted for administrative assistance.

Each student who is being provided educational services through an Individualized Education Program (IEP) is subject to district discipline regulations unless, as provided by law, specific behavioral concerns are addressed as part of the student's IEP. Teachers are expected to work cooperatively with special education staff to resolve any concerns regarding the conduct and discipline of a student with disabilities.

STUDENT DISMISSAL PRECAUTIONS

No staff member may permit any student to leave class/school prior to the regular hour of dismissal except as may be authorized by the office.

During school hours, or while engaged in district-sponsored activities, students may be released only into the custody of parents or other authorized persons.

STUDENT/PARENT HANDBOOK (Board Policy CHCA)

A student/parent handbook is issued to all students at the beginning of each new school year and at the time of registration for new students moving into the district at other times of the year.

All staff are expected to familiarize themselves with the general information, administrative regulations and procedures pertaining to students as set forth in the student/parent handbook and in Board policy.

Teachers are expected to review the handbook with students during the days/times designated by the building principal.

STUDENT PERFORMANCES

Teachers are encouraged to arrange for individual student and group public performances when such performances contribute to the educational process and are consistent with district and course goals.

All performances involving students must be approved by the building principal and may not interfere with other scheduled activities or classes within the school.

The extended use of one particular group of student is generally discouraged. Teachers are expected to enforce all student conduct and discipline rules when engaged in such activities.

STUDENT TRANSPORTATION IN PRIVATE VEHICLES (Board Policy EEAE)

Transportation of students to and from school and to curricular and extracurricular activities sponsored by the district is provided by the district's transportation system in accordance with district policy.

Parents, employees and other designated adults may be permitted to use private vehicles to transport students other than their own on field trips or other school activities only with prior principal approval.

The parent, employee or other adult driving the vehicle must be properly licensed and must provide proof of insurance. Such insurance shall meet or exceed minimum requirements as established by the state of Oregon and as set by the district. The vehicle must contain an adequate number of seat restraints including, when applicable, a child safety system for a child who weighs less than 40 pounds, regardless of age, and the adult driver requires their use. The child safety system must elevate the person so that a safety belt or safety harness properly fits the individual and meets the minimum standards and specifications of law. A person over 40 pounds or who has reached the upper weight limit for the forward-facing car seat must use a booster seat until they are four feet nine inches tall or age eight and the adult belt properly fits. A person who is taller than four feet nine inches or eight years of age or older must be properly secured with a safety belt or harness that meets the minimum standards and specifications of law. Training in the proper installation and use of child safety systems may be required. The driver is responsible for not placing children under the age of 13 in the front seat of a vehicle equipped with passenger-side air bags.

No student is to be permitted to perform district business with their own vehicle, a staff member's vehicle or a district-owned vehicle.

STUDENT WITHDRAWAL FROM SCHOOL

Upon notification by the office of a student withdrawal from school, teachers are expected to complete the student withdrawal form, including grade earned to date.

Teachers are expected to make a complete accounting of any unreturned or damaged books, locks, materials, supplies, equipment or other district property including replacement costs, if known. Submit the list to the office.

In accordance with law and Board policy, restrictions and/or penalties may be imposed until such fees, fines or charges are paid.

VISITORS (Board Policy KK)

Students are not permitted to bring visitors to school without prior approval of the principal.

Staff members are expected to report any unauthorized person on school property to the principal.

SPECIAL PROGRAMS

ALTERNATIVE EDUCATION PROGRAMS (Board Policy IGBHA)

Alternative education programs have been developed and identified to meet the individual needs of students. These programs are made available to students who are unable to succeed in the regular programs because of erratic attendance or behavioral problems; who have not met or who have exceeded all of Oregon's academic content standards; when the district determines that the placement serves the student's educational needs and interests and assists the student in achieving district and state academic standards; or when a public or private alternative education program is not otherwise readily available or accessible. The involvement of staff, parents and the community in recommending alternative education programs for Board approval is encouraged.

Alternative education programs consist of instruction or instruction combined with counseling and may be public or private. Home schooling is not a permissible alternative education option.

When a student is placed in an alternative education program by the district, the district is obligated to pay the actual private alternative education program cost or an amount equal to 80 percent of the district's estimated current year's average per-student net operating expenditure, whichever is less. If the student is not successful in the alternative education program, there is no obligation to propose or fund a second alternative.

The district provides individual notification to students and parents regarding the availability of alternative programs semi-annually or when new programs become available under the following situations:

1. When two or more severe disciplinary problems occur within a three-year period. Severe disciplinary problems are defined in the student/parent handbook;
2. When attendance is so erratic the student is not benefitting from the educational program. Erratic attendance is defined in the student/parent handbook;
3. When an expulsion is being considered;
4. When a student is expelled;
5. When an emancipated minor or a student's parent or legal guardian applies for exemption from compulsory attendance on a semi-annual basis.

Teachers with questions concerning available alternative education programs should contact a counselor or the principal.

ASSESSMENT PROGRAMS (Board Policy IL)

The district's assessment program has been developed to meet state requirements and local district needs.

Assessment results are used to measure the academic content of standards and to identify students who meet or exceed the performance standards adopted by the State Board of Education. Additional services, alternative educational or public school options are made available to any student who has not met or has exceeded all of the state-required academic content standards.

The district's assessment program consists of the following:

1. Criterion-reference assessments, including performance-based assessments, content-based assessments and other valid methods as may be required by state and federal requirements;
2. Individual diagnostic and ability evaluations in all grades when individuals have been referred and parental permission obtained;
3. Assessments by individual teachers;
4. Other school-wide and grade level-wide assessments. Dates for district and state assessments will be announced by the principal as appropriate.

An adult student or a parent on behalf of a student may annually opt-out of taking the statewide summative assessments as provided by state law. The district shall provide the required notice and necessary forms to the parent of adult student.

BILINGUAL EDUCATION (Board Policy IGBI)

Students whose primary language is a language other than English are provided appropriate assistance through the district's English as a Second Language Program (ESL) until they are able to use English in a manner that allows effective, relevant participation in regular classroom instruction.

Parents who are not able to use English in a manner that allows effective, relevant participation in educational planning for their student will be provided with relevant written, verbal or signed communication in a language they can understand.

Staff in need of assistance in translations, materials selection, special curriculum development, etc., should contact the office.

BREAKFAST/LUNCH PROGRAMS (Board Policy EFAA)

The district participates in the National School Lunch and School Breakfast and Commodity Program(s).

Free and reduced price meals are available for students unable to pay the full price for meals. General information, eligibility criteria and confidential application forms are available through the office.

COUNSELING AND GUIDANCE PROGRAM (Board Policy IJA)

The district's school counseling program is designed to involve all staff and parents in the educational, personal/social and career development of students.

Counselors may provide such services as academic counseling for students and parents, including assistance and information in the areas of scheduling, forecasting, assessments, alternative educational programs, progress towards meeting local and state graduation requirements, scholarships, and college entrance requirements and identification of district, community and state-wide resources for students with academic, personal/social or other needs.

Counselors are also available to assist students with academic, social and personal problems and define and arrive at positive solutions through a variety of conference settings.

Students generally schedule appointments to see a counselor through the counseling office. Prior notice to a teacher that a student will be missing class may not always be possible because of the emergency nature of many of the appointments.

Teachers may refer a student to a counselor by contacting the counselor directly or by completing a referral form, available in the office. Teachers interested in arranging a conference with a counselor and a particular student and/or parent should contact the counseling office.

Counselors and teachers with counseling responsibilities are expected to respectfully the right of privacy of those with whom they enter counseling relationships. Confidential matters are not to be discussed over the telephone.

Confidentiality is not to be abridged except:

1. Where there is clear and present danger to the student or others;
2. To consult with other professional persons when this is in the student's interest;
3. When the student waives this privilege in writing.
4. When specifically authorized or required by law.

CRISIS PREVENTION/RESPONSE PROGRAM (Board Policy JHHA)

The district recognizes that schools are subject to a number of potential disruptive events. These events include major crises. No school is immune no matter the size or location.

Being prepared for a crisis can enhance the district's effectiveness in responding to smaller incidents.

The district knows that schools cannot be sanctuaries. The challenge, however, is to protect students as much as possible in an increasingly violent world.

Although there is no guarantee that a district/school will ever be completely safe from crime, the district will take the following security measures to lessen the chances of violence occurring on school grounds:

1. The district will coordinate a local school security committee (task force) comprised of school officials, law enforcement officials, other youth-services providers. The committee will plan what safety measures are needed and how they can be implemented, as well as regularly review school safety and security measures;
2. School site administrators will acquire crime-resistance savvy and take greater responsibility in working with the Board and district to implement site security programs;
3. The district will develop a comprehensive crisis management plan that incorporates resources available through other community agencies;
4. A school communications network will be established that links classrooms and playground supervisors with the front office or security staff as well as with local law enforcement and fire departments;

To protect against intrusion the district will not only analyze the facilities to make illegal entry as difficult as possible but will develop a crisis plan so that each staff member and student knows what to do in an emergency.

EARLY CHILDHOOD EDUCATION – Readiness to Learn

The district recognizes the necessity to ensure that all children have access to early education opportunities to better develop the skills, attitudes and habits expected of kindergarten and first grade students. To this end, the district has coordinated and/or collaborated with a variety of programs for children birth through age five (5). These programs include early childhood special education, state and federal Head Start programs, Healthy Start and child development.

Additionally, early education opportunities are provided to students between kindergarten and grade three (3). These include targeted services for 'at-risk' children; ongoing curriculum and educational practices review and improvements that encourage parent participation and promote consistency with

research findings about how children learn and sensitivity to individual differences; interagency agreements among the district and health care and social service providers; ongoing review of program goals; and planned transition from pre-kindergarten to kindergarten through grade three (3).

HEALTH SERVICES PROGRAMS (Board Policy JHC)

The district has an established health-services program which provides:

1. Pertinent health information on students, as required by Oregon statutes and rules;
2. Health-appraisal services, including screening for possible vision or hearing problems;
3. Health counseling for students and parents, when appropriate;
4. Health care and first-aid assistance that is appropriately supervised and isolates the sick or injured child from the student body;
5. Control and prevention of communicable diseases as required by the Oregon Health Authority and the local health department;
6. Assistance for students in taking medication according to established district policies and procedures;
7. Services for students who are medically fragile or have special health care needs;
8. Integration of school health services with school health education programs.

The district's school nurse is available as a resource to teachers in securing appropriate information and materials on health-related topics.

All staff will be informed of their responsibilities in these areas.

Non Emergency invasive physical examinations and screenings not otherwise required or permitted by state law may take place under federal law only with prior parental notification and the option for parents to excuse their student from the activity.

Oregon Revised Statute (ORS) 336.201 requires:

- (1) One registered nurse or school nurse for every 125 medically fragile students; or
- (2) One registered nurse or school nurse or one licensed practical nurse under the supervision of a registered nurse or school nurse for each nursing-dependent student; or
- (3) One registered nurse or school nurse for every 225 medically complex students.

The district may use the most cost effective means available to meet the above requirements.

HOMEBOUND INSTRUCTION (Board Policy IGBG)

Homebound instruction is provided to any student whose health or impairment causes them to be absent from school for at least 10 days. A physician's statement substantiating such absence is required in order for the district to authorize homebound instruction.

The amount of instructional service provided will be related to each student's educational needs and physical and mental health.

Teachers are expected to cooperate with counselors, students and parents to provide such assignments/homework as may be necessary to help students maintain satisfactory progress during the student's temporary absence from school.

HOME TUTORING SERVICES (Board Policy IGBGA)

Home tutoring services may be provided to students who are temporarily disabled or for other medical reasons unable to attend school in excess of 10 consecutive school days. A physician's statement substantiating such absence is required in order for the district to authorize home tutoring.

The home tutor will work with the student's teacher to provide the necessary instructional support needed to help the student maintain their academic progress.

LIBRARY/MEDIA SUPPORT SERVICES

Teachers should contact library/media staff for assistance in obtaining audiovisual materials and equipment, computer software, video recordings, laser disks, sound filmstrips and other instructional media materials maintained by the district.

Additional supplemental materials may also be available through the local education service district and/or state library system.

A professional collection of books and current periodicals is also available for staff use in the library/media center. Materials may be checked out through staff.

Teachers may schedule with staff to bring entire classes to the library/media center for project work, as appropriate. Individual students may be admitted for specific project work during class time with a note from the student's teacher.

MEAL PROGRAMS (Board Policy EFAA)

The district participates in the National School Lunch, School Breakfast, and Commodity Programs.

The district will notify all households and appropriate staff of its meal charge requirements at the beginning of each school year, upon enrollment of a student, or the transfer of a student. The meal charging requirements will be published in the student/parent handbook,

Regardless of the ability to pay, a student shall be provided a reimbursable meal upon request. Parents or guardians may provide written permission to the district to withhold a meal from a student. After five meal charges the district will attempt to certify the student for free or reduced-price meals. At least two attempts to contact the student's parent or guardian for completing a meal application will be made by the district, including offering assistance filling out the application, if appropriate. Communications regarding student charges will be directed to parents or guardians, only.

PREGNANT/PARENTING STUDENT PROGRAMS (Board Policy JFE)

The district advocates the right to continued public education for all pregnant and parenting students. A pregnant and parenting student should be encouraged to continue with their educational program and to participate in all school sponsored activities unless physically unable.

Teachers are expected to work cooperatively with counselors, parents and students in the development of individualized educational programs or services, or both, to address the needs of pregnant and parenting students when their educational needs cannot be met by the regularly provided school program.

SPECIAL EDUCATION SERVICES (Board Policy IGBA)

Students ages kindergarten through 21 living in the district that have been evaluated by qualified educational and/or medical personnel and found eligible for services or programs for students with disabilities shall be provided a free and appropriate education (FAPE).

The related services and educational programs provided are designed to meet the needs as specified by the student's Individualized Educational Program (IEP).

Special classes, separate schooling or other removal of students with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general curriculum.

Placements are made by the building's IEP team, which consists of the student's parent(s); one regular education teacher, if the student is participating in the regular education program, or, if the student does not have a regular education teacher, a teacher qualified to teach a student the same age; the

student's special education teacher or a special education provider; a representative of the district; an individual, who may be another member of the team, who is knowledgeable about the student's disability and who can interpret the instructional implications of the evaluation results; the student when appropriate and other individuals, who have knowledge or special expertise regarding the student, at the discretion of the parent or district, and other agency representative as provided by law.

Teachers with questions regarding the referral and placement process should contact a special education staff member. All teachers are expected to work cooperatively with special education staff to modify curriculum, instructional strategies and grading as necessary to meet the needs of a student's IEP.

STUDENT ASSISTANCE PROGRAM (Board Policy JHH)

The district recognizes that students can experience a number of personal, behavioral or medical problems which can have an adverse effect on their behavior, conduct or academic performance in school.

In order to assist students to resolve problems arising from behavioral/medical problems, including alcohol and other drug abuse, the district has established a Student Assistance Program.

Referral forms and procedures are available through the counseling office.

The Board recognizes that childhood/adolescent suicide and suicidal tendencies are continuing problems within the elementary and secondary schools of the nation. Designated staff will be trained in an evidence-based suicide prevention program. All staff are expected to become familiar with the district's Student Suicide Prevention Plan and Board policy JHH - Student Suicide Prevention.

Decisions regarding individual or a group in crisis will be made through a team approach. No individual staff member will make crisis decisions in isolation.

TALENTED AND GIFTED PROGRAMS (Board Policy IGBB)

The district has developed a written plan for the identification of, and provisions for a program and services for, academically talented and/or intellectually gifted students. This process of identification shall include as a minimum:

1. Use of research based best practices to identify talented and gifted students from under-represented populations such as ethnic minorities, students with disabilities, students who are culturally and/or linguistically diverse or economically disadvantaged.
2. Behavioral, learning and/or performance information.
3. A nationally standardized mental ability test for assistance in the identification of intellectually gifted students.
4. A nationally standardized academic achievement test of reading or mathematics or a test of total English Language Arts/Literacy or total mathematics on the Smarter Balanced Assessment Consortium for assistance in identifying academically talented students.

Identified students must score at or above the 97th percentile on standardized one of these tests. Other students who demonstrate the potential to perform at the eligibility criteria, as well as additional students who are talented and gifted may be identified. Each teacher will receive a list of identified talented and gifted students assigned to their classroom. Teachers are expected to modify curriculum, instructional strategies and grading, as may be necessary, to meet the needs of identified students.

The district has established an appeal process for parents to utilize if they are dissatisfied with the identification process and/or placement of their student in the district's program and who wish to request reconsideration. A complaint procedure has been developed for a person who resides in the district or a parents of a student attending school in the district to resolve disputes regarding the appropriateness of programs and services provided to talented and gifted students. Staff should refer parents with questions to the principal.

TITLE 1A PROGRAMS (Board Policy IGBC)

In order to help meet the needs of disadvantaged students, the district participates in Title IA federally-funded programs that provide basic skills instructional services for educationally disadvantaged students in grades K-5 and who live in targeted low-income areas. Students identified in need of Title IA services are provided instruction on a daily schedule, as appropriate. Title IA staff will meet with individual teachers regarding scheduled instruction.

Children with disabilities and Limited English Proficient children are eligible for Title IA services on the same basis as other children who are selected for services.

Teachers with questions or concerns regarding student placement or scheduling in this program should contact the Title IA coordinator.
